

## Funding Opportunities in the Arts\* - January 2017 edition

Every month, Raising Awareness, Raising Funds will bring you current, open grant opportunities in the arts. Some you may have heard of, and some may be new to you. We will have opportunities for individual artists, as well as arts organizations. We will feature grants in performing and visual arts disciplines, as well as some surprises. We will strive to bring you funding opportunities with a national focus, of interest to anyone across the country.

We offer this monthly feature as a service to our colleagues in the arts who love what they do, they just need the money to do it! We welcome your feedback.
